

ABOUT US

AspenPointe is a designated mental health provider of the FEMA Colorado Crisis Program (CCP: COVID-19 Response) grant. Our outreach counselors provide brief strengths-based support, stress and resilience education, and facilitate connections to mental health and other community resources throughout El Paso, Teller, and Park counties. Our COVID-19 Crisis Response Services are designated to support Coloradans affected by COVID-19. Our AspenPointe service continuum provides a great resource should higher level needs be identified by field-based outreach workers.

OUR SERVICES

- Brief educational or supportive contact
- Remote individual crisis counseling
- Group crisis counseling
- Public education
- Assessment, referral, and resource linkage
