

Mat Section 1

5. Put the pills in your hand and hold your hand to the camera so your nurse can see the pills. You may take one at a time or all at once. Be sure to show your empty hand to the camera after putting pills in your mouth. Also, open your mouth to the camera to show the pills on your tongue before swallowing with water.
6. Swallow pills with a few swallows of water from a clear container.
7. When you are done, open your mouth and show your nurse that you swallowed all the pills.
8. Say: "Thank you. I will record again on ___(day) ___ at _____ (time) _____. Good-bye."
9. Turn off the video application.
