December 2013

Dear Parents of Students in Colorado Schools, K through 12th Grades (School Year 2014-15),

Immunizations are an important part of our children's health care, and Colorado law requires that children going to school be vaccinated to prevent vaccine-preventable disease. The purpose of this letter is to let you know which vaccines are required for school attendance and which vaccines are recommended for best protection against vaccine-preventable disease (see chart on second page).

As a parent, it is important to know that in addition to the vaccines required by the state of Colorado Board of Health for school entry, there are vaccines that are recommended by the Advisory Committee on Immunization Practices (ACIP). This is the immunization schedule that will best protect your child from even more vaccine-preventable diseases.

Parents often have concerns or want more information about children's immunizations and vaccine safety. A resource developed for parents with frequently asked questions about the safety and importance of vaccines can be located at: www.ImmunizeForGood.com . The Colorado Immunization Section's website is located at: www.ColoradoImmunizations.com .

Schools work hard to ensure compliance with the immunization laws. Your help in providing updated immunization records at school registration and when your child receives additional vaccine(s) is greatly appreciated. Please discuss your child's vaccination needs with your child's doctor or local public health agency. (To find your local public health department's contact information call the Family Health Line at 1-303-692-2229 or 1-800-688-7777). Please bring your child's updated immunization records to the school each time your child receives an immunization.

Sincerely,

Colorado Immunization Section

| Hepatitis A (Hep A) | 2 | All children 1 year and older |

For REQUIRED vaccines: A laboratory test showing immunity is acceptable.

You must provide one of the following to your child's school in order to comply with the law:

1. A completed Certificate of Immunization certifying that the student has received minimum immunizations.
2. If a student's Certificate of Immunization is not up to date, the parent/guardian or emancipated student has 14 days after direct notification to provide documentation that the next required immunization was administered and submit a written plan for completion of any additional required immunizations. If the plan is not completed, the student shall be expelled or suspended from school for non-compliance. Exception to this rule is a shortage of vaccine.
3. Statement of Exemption to Immunization - Colorado Department of Public Health and Environment Certificate of Immunization:
 - a) a **medical** exemption signed by licensed physician stating that the student's physical condition is such that immunizations would endanger life or health or is otherwise medically contraindicated; or
 - b) a **religious** exemption signed by the parent, guardian, or emancipated student that the student adheres to a religious belief opposed to immunizations; or
 - c) a **personal** exemption signed by the parent, guardian, or emancipated student that the student adheres to a personal belief opposed to immunizations.

Immunization requirements will be strictly enforced for all students. Students who do not meet the requirements will be denied attendance according to Colorado Revised Statutes 25-4-902.
